

TYPE › cardio

MODEL › HF-XS9800-E

OPTION › HF-TV9800-CE Personal TV Screen

HOTEL FITNESS®

The World's Leader In Hotel & Resort Fitness®

This XS9800-E blends the low-impact stride of ellipticals and the calorie burn from incline training. The best part is, you define your stride. No other cardio machine gives you up to 44" of natural striding motion in a small footprint. This unique footpath allows you to engage your hamstrings and glutes for more muscle activation and calorie burning than walking and running. Regardless of your height, you are free to move through YOUR natural range of motion.

FEATURES & BENEFITS

Integrated Speakers › Users can plug in their CD or MP3 player directly into the console via a standard audio cable to listen to their favorite music through the integrated speakers.

Integrated Fan › With low, medium and high settings, the fan offers added comfort even during the most intense training.

44" Variable Stride › 44" of natural striding motion in a small footprint. This unique footpath responds to you, and allows you to engage your hamstrings and glutes for more muscle activation and calorie burning than walking and running.

Rear-access Design › Space-efficient, rear-access design allows users to safely enter/exit the machine from the back.

Stride Ladder™ › Keep up the pace and view your stride in real time. This unique console feature lets you know where you are in your workout and when you need to kick it up a notch to meet your fitness goals.

ERS™ › Custom designed ERS (Electromagnetic Resistance System) applies consistent resistance to the flywheel and generates power for the console.

Contact Heart Rate › Pulse information can be displayed on the console via contact sensors or compatible wireless chest strap.

Cushioned Gel Pedals › Foot pedals feature a gel cushion for added stride comfort.

Personal TV Screen (Optional) › With the optional Workout TV upgrade and integrated speakers, you're ready to escape and exercise watching your favorite TV show or movie.
