

TYPE › cardio

MODEL › HF-TR9800-R

# HOTEL FITNESS®

The World's Leader In Hotel & Resort Fitness®

The TR9800-R is the most innovative treadmill in the marketplace today. Featuring its patented Reflex Deck Impact Absorption Technology, the TR9800-R treadmill deck is built like a snowboard using composite material, which allows for maximum absorption of impact without sacrificing strength.

## FEATURES & BENEFITS

**Integrated Speakers** › Users can plug in their CD or MP3 player directly into the console via a standard audio cable to listen to their favorite music through the integrated speakers.

**Integrated Fan** › With low, medium and high settings, the fan offers added comfort even during the most intense training.

**Reflex Deck™ Impact Absorption Running Surface** › The treadmill deck is built like a snowboard for strength and flexibility. The composite deck responds to movement, absorbing impact at the heel and maintaining stability at toe off. The wood core absorbs vibration and flexes to cushion every foot strike. The outer coating bonds everything together for outstanding durability and structural integrity.

**Incline** › Adjust incline from 0 to 15% by scrolling in 0.5 increments.

**Large Running Surface** › A larger running surface adds to safety and user stability.

**Lift Motor** › AC lift motor provides smooth incline and decline movement and stabilizes the deck.

**Heart Rate** › Users have two contact points for monitoring heart rate. Pulse information can be displayed on the console via contact sensors or compatible wireless chest strap.

**Commercial-Grade Components** › Manufactured with commercial-grade materials and the finest components for extreme durability and reliability.

**Reflex DECK™**  
Impact Absorption Running Surface

## SPECS › HF-TR9800-R Treadmill

Dimensions 85" x 34"

Product Weight 370 lbs. (168 kg)

Motor 3.5 HP Commercial Motor

Tread Belt Size 22" x 58"

Speed Range 0.5 - 12 MPH

Incline Range 0 to 15%

Max. User Weight 350 lbs.

Power Req. 120 Volts, 12 Amp

Running Surface Reflex Deck™ Impact Absorption Running Surface

H.R. Monitoring Hand Grip & Wireless Heart Rate

Safety Commercial Emergency Stop System

Regulatory Approvals UL, CSA, TUV
